

Swisslog Healthcare Elevates Cory Kwarta to CEO

Kwarta will now oversee global operations of all Swisslog Healthcare

BROOMFIELD, Colo. (November 18, 2022) – [Swisslog Healthcare](#), a leading supplier in healthcare technology solutions of both medication management and transport automation, has appointed Cory Kwarta as its CEO. Kwarta, who was appointed as CEO of the Swisslog Healthcare – TransLogic division earlier this year, is now entrusted to oversee the global organization, guiding both the company’s TransLogic® and Medication Management divisions.

“Since I started at Swisslog Healthcare, my goal has always been to help improve efficiencies in the healthcare industry,” said Cory Kwarta. “As CEO of the company, I will remain dedicated to our organization’s commitment of helping our customers and partners provide the highest quality healthcare.”

Cory Kwarta was also recently named as a member of Swisslog Healthcare’s Board of Directors. The move came as a result of Kwarta’s recent prior promotion to CEO of Swisslog Healthcare – TransLogic and his 15 years of service with the organization.

Kwarta has a bachelor’s degree in systems engineering from the United States Military Academy at West Point and a master’s degree in business administration from the University of Denver.

Swisslog Healthcare’s TransLogic division works with healthcare facilities to develop custom-designed pneumatic tube systems which automate their needs to transport materials from station to station. The Medication Management division of Swisslog Healthcare assists healthcare facilities with automating and managing the pharmaceutical workflow, including preparation, patient-specific dosing, delivery, and storage. Both divisions deliver operational cost reduction by enabling the redeployment of personnel to patient-facing activities.

About Swisslog Healthcare

Swisslog Healthcare provides integrated medication supply chain solutions to hospitals and health systems to assist providers in treating patients across the continuum of care. Integrating transport and pharmacy automation, value-added services, and intelligent software, Swisslog Healthcare enables healthcare providers to respond to patient’s needs quickly and with greater accuracy. The company minimizes many sources of operational waste, so providers achieve higher levels of productivity to impact the well-being of patients in positive ways.
