

Swisslog Healthcare Promotes John Hall to VP of Pharmacy Automation Software Products for Medication Management

BROOMFIELD, Colo. (May 25, 2023) - [Swisslog Healthcare](#), a leading supplier of medication management solutions and transport automation, announces John Hall as Vice President of Pharmacy Automation Software Products for [Medication Management](#). John will be responsible for overseeing the Pharmacy Automation Software Products team in North America which collaborates globally to develop software for Swisslog Healthcare's Ararat Product line and the next-generation BoxPicker.

"There is no better deputy for our North American team than John Hall," said Cristian Fanucci, Head of Engineering and Development at Swisslog Healthcare. "John will share his subject matter expertise and passion for Swisslog Healthcare to steer our Medication Management engineering efforts forward."

"I look forward to supporting our organization as we continue to grow and evolve with the industry," added John Hall. "There are always opportunities for improvement and I take pride in being able to support Swisslog Healthcare's next generation of products, pushing forward, expanding our knowledge, and honing our processes to ensure Medication Management is efficient and reliable."

In his new role, John will also work alongside Pharmacy Managers and improve processes that will allow medication management and software products to be deployed and supported more efficiently.

"Increased collaboration with other teams will drive the success of the business," said John Hall. "By working more closely with our teams here and abroad, we will have more ideas, better communication, increased shared workload, and greater success than if we continued working as isolated teams."

John has been with Swisslog Healthcare since 2019, previously serving as a Senior Engineer and most recently Director of Software Applications. John has led several key initiatives during his time at Swisslog Healthcare. He implemented a 24/7 support program for customers with questions about products and is responsible for the design and implementation of UI-

Microservices. John also oversees Swisslog Healthcare's branded UI-Component Sets, a technology that is now used in all of the organization's new products.

About Swisslog Healthcare

Swisslog Healthcare provides integrated medication supply chain solutions to hospitals and health systems to assist providers in treating patients across the continuum of care. Integrating transport and pharmacy automation, value-added services, and intelligent software, Swisslog Healthcare enables healthcare providers to respond to patients' needs quickly and with greater accuracy. The company minimizes many sources of operational waste, so providers achieve higher levels of productivity to impact the well-being of patients in positive ways.
