

# **AutoCarousel® Semi-Automated Pharmacy Storage System**

- + Save time and money**
- + Improve medication control and tracking**
- + Streamline processes**

## **AutoCarousel® Semi-Automated Pharmacy Storage System**

AutoCarousel is our proven, semi-automated storage and retrieval system for hospital pharmacies.

If your pharmacy wants to improve manual, labor-intensive processes and reduce picking errors and excess inventory, AutoCarousel is your solution.

Employing automated storage and retrieval transforms medication inventory management—reducing labor, drug waste, missing medications, and picking errors. With more than 500 installations over the past 15 years, AutoCarousel has been integrated with virtually every health record system, wholesaler, eMAR, ERP and ADC vendor in the market. This established storage and retrieval system maintains its position as the solution of choice for space and budget conscious health systems looking to efficiently and safely manage their medication inventory.

### **Why AutoCarousel?**

- **Save time:** AutoCarousel automates the medication management process including ordering, receiving, stocking, picking and returning. This saves your pharmacy time.
- **Improve Medication Control and Tracking:** AutoCarousel lets you comprehensively track and manage all stored items. Barcode scanning all medications brings organization to the often-chaotic pharmacy environment.
- **Save Money:** Accurate tracking helps you drastically reduce medication waste and inventory carrying costs, saving your health system valuable resources. Tight inventory management promotes proper medication utilization and purchasing, leading to systemwide savings.
- **Streamline processes with other health technology investments:** AutoCarousel's integration with EHRs, wholesalers, eMARs and other best-of-breed pharmacy automation systems streamlines your processes.

- 1 Barcode verification and pick-to-light orders**  
Ensure accurate order filling, improving patient safety
- 2 Modular design and on-site assembly**  
Allows placement in tight spaces, reclaiming valuable pharmacy space
- 3 Integrates with Pharmacy Manager**  
Facilitates comprehensive, accurate order tracking and control
- 4 Password-protected access**  
Adds security and traceability to order entry, improving chain of custody
- 5 Manual spinning**  
Provides access to items in case of emergency entry, improving chain of custody
- 6 Temperature control**  
Supports ambient or refrigerated storage needs

## Leading Change for Better Care

We strive to lead change for better care. At the core of this vision is a focus on improving workflows and reducing the time clinicians spend doing repetitive tasks—enabling more time to care for patients and residents. Our solutions and services extend along the continuum of care, including transport, medication and supply chain management for long-term care facilities, consolidated service centers, hospitals and health systems.

### How Swisslog Healthcare is Different

We are unique in our ADC-agnostic approach and focus on innovation from the pharmacy core. Our commitment to the critical work done by hospital pharmacy staff ensures that our solutions will provide efficiency gains, clinical improvement and patient benefits for many years to come.
