

AutoCool® + H Secure Refrigerated Storage Specification

AutoCool +H delivers access-controlled refrigerated storage and computer driven dispensing for your valuable refrigerated medications. It enables centralized control and reporting and is scalable to accommodate expanding needs and satellite locations. AutoCool +H is fully integrated with AutoPharm® Enterprise software to provide one inventory solution.

AutoCool +H

Features

- Digital temperature display
- Automatic temperature and humidity logging
- Locking heavy-duty casters
- Air cooled, forced air refrigeration system for uniform temperature and quick recovery
- Dual-temperature probes
- Lockable front door

Patient Safety

AutoCool +H supports bar code confirmation of all dispensing and put-away activities for your refrigerated medications. It limits personnel actions through password secured doors.

Enhanced Efficiency

AutoCool +H integrates with AutoPharm Enterprise, the powerful software platform that enables complete management of your medication inventory from arrival at the pharmacy to delivery to the patient care area.

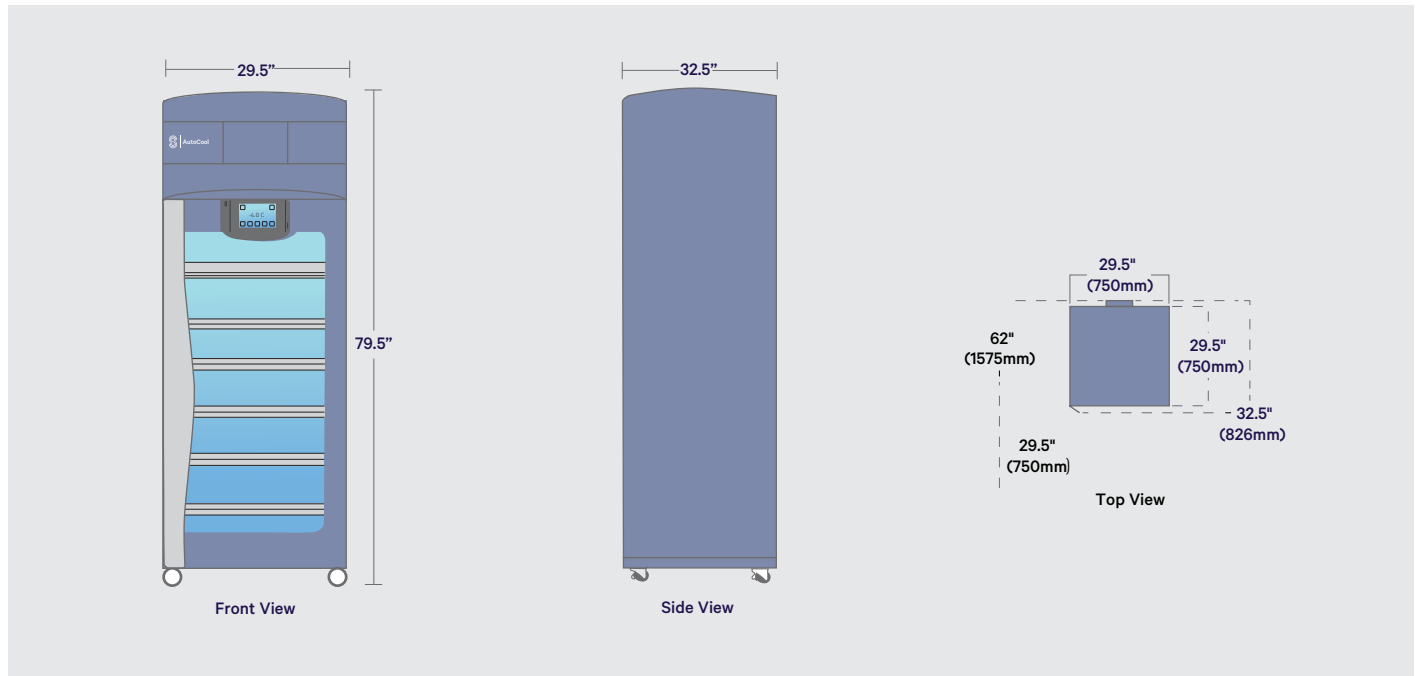

Complete Inventory Control

AutoCool +H can consolidate your refrigerated medications as a part of a comprehensive, integrated inventory system. It enables easy, centralized control and perpetual inventory management based on par-levels and supports integrated wholesale ordering.
