The AutoPack™ Desk (DEN) model offers fully automated packaging for oral solid medications. The AutoPack DEN easily integrates with your pharmacy operations and maximizes space efficiency while maintaining the same high standard of packaging performance as larger models. It will process up to 60 doses per minute and its optional AutoCanister™ feature allows automated dispensing of half-dose tablets, infrequently used tablets or tablets with special shapes.
AutoPack DEN Capacity Options

**JV-DEN**

No Canisters

**JV-36DEN**

36 Canisters

**JV-84DEN**

84 Canisters

AutoPack DEN Specifications

**Features**
- Compact, slim design
- Precise control and access
- Automated barcoding of oral solid medications
- User-defined label space
- Recognition of priority and STAT orders for immediate packaging
- Special Tablet System (STS) Tray and half-tab support

**Site Requirements**
Prior to installation, a site survey will be completed to ensure there are no physical obstructions that would affect installation. Additional space may be required for installation. Actual space required may vary.

Lighted STS Tray
Swisslog Healthcare

At Swisslog Healthcare, we strive to lead change for better care. At the core of this vision is a focus on improving workflows and reducing the time clinicians spend doing repetitive tasks—enabling more time to care for patients and residents. Our solutions and services extend across the continuum of care, including transport, medication and supply chain management for long-term care facilities, consolidated service centers, hospitals and health systems.
