

Simplify Your Workflows

Increase Your Accuracy

Picking the right **pharmacy automation solution is easy.**

11%

of medication errors in hospitals are pharmacy **dispensing errors** related to the wrong drug or strength.¹ Many picking errors **are preventable** if you pick the **right solution.**

+

60%

of medium/large hospitals use carousel technology.²

aren't new.

In fact, the first carousel was introduced in the 1970s.

Introducing BoxPicker®

Automated Pharmacy Storage System was introduced in 2003, replacing outdated carousel technology and **revolutionizing pharmacy storage and picking.**

Addresses Security Concerns

- » **Limits access** to only one bin at a time.
- » **Security Patched** and updated to stay current and protected.
- » **Integrates** into your IT and Security environment.
- » **Zero exposure** to moving parts.

BoxPicker Fits Your Space

Reinforce your floors? Uniform floor loading. No need to reinforce floors.

Low ceilings? BoxPicker is available in 8 or 10 foot heights.

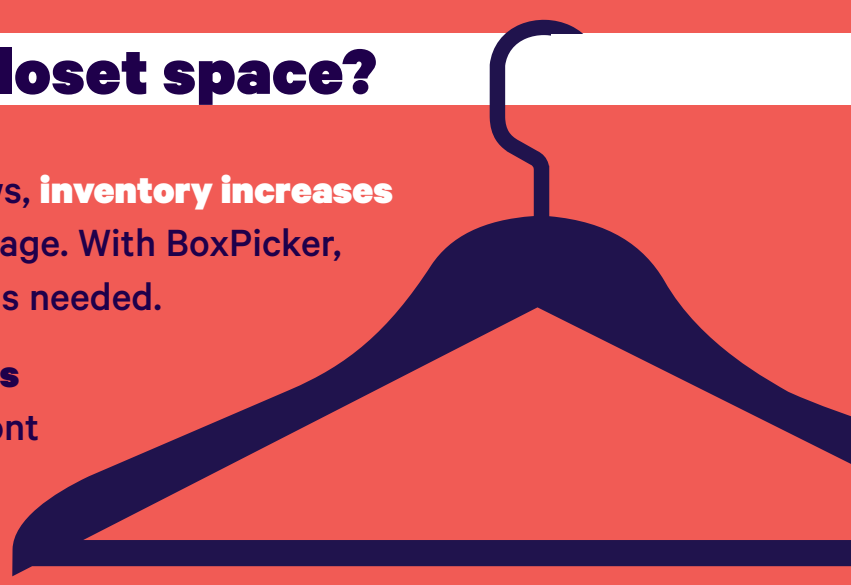

Facility Friendly

Not enough closet space?

As your pharmacy grows, **inventory increases** and so should your storage. With BoxPicker, you can **add modules** as needed.

Extra operator stations Add stations on the front or back and even in an ante room.

Is this box taken?

Storage boxes are **never reserved** or sitting idle waiting for a refill.

Once a box is emptied, it is **reassigned** to the next item that needs to be loaded.

Wait, where is that again?

Figuring out what medications to store and where **shouldn't be complicated.**

BoxPicker does it for you—moving inventory to storage and dispensing at the touch of a finger.

Is it Cold in here?

BoxPicker provides **refrigeration options** – add a single refrigerated module or refrigerate the entire system.

Oversized Items?

Large capacity drawers to secure bigger items inside the BoxPicker.

Order Up

No need to put on your walking shoes to prep for picking. Medications are **brought right to you** at a secure operator station.

You won't be waiting either. BoxPicker picks ahead of the user at a rate of **3 to 1** over standard carousels.

DO MORE

with less

With BoxPicker, **multiple activities** can take place **simultaneously.** Load from one station, pick from another.
