

NexSeal™ EL: The ideal carrier for modern hospitals

Integrating durability and convenience qualities, the NexSeal EL carrier for **TransLogic®** pneumatic tube systems (PTS) is redesigned to support the way busy hospital staff and clinicians work.

The NexSeal EL carrier is durable, lightweight, and simple to use. Featuring an easy-close latch, the carrier opens flat on surfaces, adding stability and convenience.

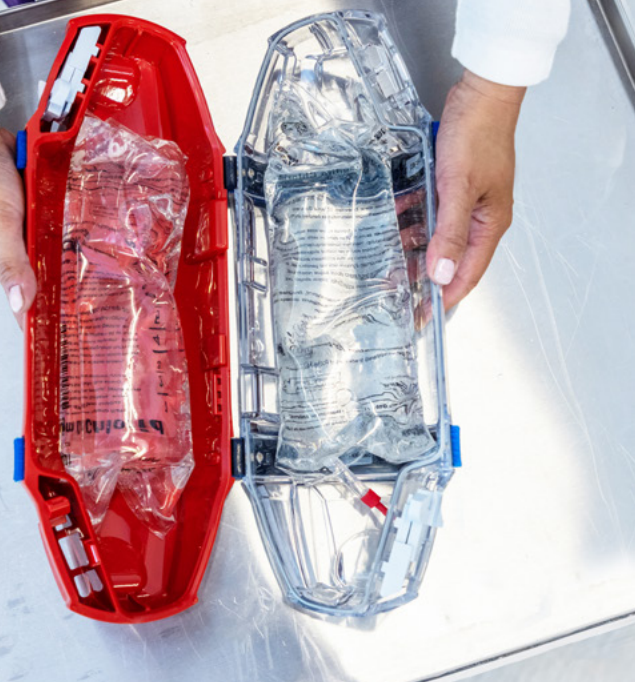

The roomy interior holds two 1-liter bags. Once closed, carrier contents are secure behind a strong, reliable seal. The light weight makes it easy to

hold multiple carriers, while the solid construction tolerates extensive handling by users.

The NexSeal EL carrier is **12% lighter and 8% roomier** than the previous NexSeal carrier.

The NexSeal EL carrier is built with Nursing, Lab, and Pharmacy departments in mind.

Frequent users of the pneumatic tube system need a convenient, reliable carrier to complement their many duties. The user-friendly NexSeal EL bridges function with ease-of-use.

Styles Available	With RFID	Without RFID
CARRIER, 6" NEXSEAL EL, CLR	75511201	75511213
CARRIER, 6" NEXSEAL EL, CLR/BLK	75511202	75511214
